JAPS ARE ADVANCING

Advance Guard Has Crossed the Yalu River.

BATTLE BELIEVED IMMINENT.

Pekin Certain of Being Attacked by the Japanese and the Women and Children Advised to Seek Places of Safety—The Crisis Looked For Within the Next Ten Days.

YOKOHAMA, Oct. 9.—The advance guard of the Japanese army has crossed the Yalu river and formed a new camp. A battle is believed to be imminent.

Minister Denby's Advice.

NEW YORK, Oct. 9.—A Shanghai dispatch via London, says: United States Minister Denby warned American residents of Pekin that the city is certain to be attacked by the Japanese and he advises that all the women and children be sent at once to places of safety. Already many of the wealthier natives are departing and many others are making preparations to follow their example.

Russian Soldiers For the Frontier.

BERLIN, Oct. 9.—The Cologne Gazette's correspondent at St. Petersburg telegraphs that for the purpose of checking the depredations of the Chinese marauders the Russian government has decided to promptly send to the frontier five battalions of Siberian troops, two squadrons of Cossacks and three batteries of artillery. This force will be under the command of General Neschenk.

Rebellion Broken Out.

LONDON, Oct. 9.—A dispatch from Shanghai says that rumors are current there that a rebellion has broken out in the district of Jehol, in the province of Chi-Li, the object of the rebellion is to overthrow the Manchu dynasty. Details have been received, and the rumors are officially discredited.

WILL IT BE A MOSCOW?

The Japs Must Hurry or Winter Will Freeze Them Up.

WASHINGTON, Oct. 9.—The crisis of the Chin-Japan war is looked for within the next 10 days or two weeks by those most interested and best informed on the contest. The legations of the two countries are expecting daily to hear that the decisive battle has been fought. This is based on the fact that the Japanese have been gradually closing in around Pekin, and the invading army is compelled by force of circumstances to strike their blow at once or not at all. The intense cold which comes on about the middle of October makes this imperative.

The Japanese climate is very mild, even in winter, and the Japanese troops are wholly unprepared for the rigorous climate about Pekin, which is due within two weeks. The Chinese look upon this as one of their defenses, and the Japanese fully appreciate that it compels them to concentrate their campaign for this year into the next few weeks, and, if possible, days. For that reason they are expected to make heroic efforts to decide the contest at once. They are without the heavy clothing, camp equipments, etc., for a campaign in the bitter cold.

FOREIGN RESIDENTS IN CHINA.

A Joint Protection of Them Will Soon Be Accomplished.

LONDON, Oct. 9.—A dispatch to The Standard from Berlin says that the negotiations of the powers with the United States, with a view to the joint protection of their subjects in China, are said to be much advanced by the Anglo-French agreement on the subject, and a general entente may shortly be expected.

The dispatch further says that Austria has entrusted the protection of her subjects in China to Germany.

The Japanese government has instructed Field Marshall Yamago to inform the diplomats at Seoul that he will not allow the Japanese army to plunder Pekin in case that city is taken.

This assurance will probably induce the diplomats to stay in Pekin even should the emperor leave the capital. They will, at any rate, attempt to negotiate a peace by asking Japan to be moderate in her demands.

The emperor's palace in Pekin is now guarded by Manchu troops only.

The Japanese army advancing on Pekin is said to have many Coreans in its ranks.

The recent statement that American officers had entered the Japanese army has been rectified. It now appears that General Ruggles of the American general staff and several other American officers were readily permitted by the Japanese government to follow the campaign, but solely as spectators.

WAS PROBABLY A FAKE.

That Detailed Description of the Chinese-Japanese Battle on July 14.

SAN FRANCISCO, Oct. 9.—The Examiner had a two-column article showing very conclusively that the New York Sun's naval duel story of Saturday morning was a cold-blooded fake concocted by two tramp newspaper men who had been dead-beating it here for six months past and that the alleged battle never occurred. A similar story was printed Monday morning of 6,000 words giving graphic details of alleged naval fight off Korean coast on July 14 in which three Chinese and two Japanese vessels were sunk. It comes from the same author and there can be no doubt that it is a fake. It is full of inconsistencies, among them being the fact that most of the vessels alleged to have been sunk on July 14 participated in the Yalu river fight on Sept. 18.

BATTLE AT ASAN.

A New Version Furnished the London Times From Tien-Tsin.

LONDON, Oct. 9.—The Times publishes a letter from Tien-Tsin, which gives a new version of the battle at Asan. The writer says the Japanese tried without success the tactics which they later carried out at Ping-Yang with brilliant success.

It is added that the full details of the battle will never be known, but that the Japanese surrounded the Chinese and delivered a night attack. The Japanese so managed matters, however, that each of their divisions mistook the other for the enemy and dealt severe execution to their own men, enabling the Chinese force to cut through the opposing line and continue their march.

A DEATHBED MARRIAGE.

How a Father's Last Wishes Were Carried Out.

NEW YORK, Oct. 9.—The uppermost wish of Nathan Bernstein, millionaire butcher, was that he might live long enough to witness the marriage of his son, John. Mr. Bernstein, who was 84, had lived for the past 22 years in Brooklyn. For about a year past Mr. Bernstein had been suffering from an affection of the liver, and, with his growing weakness, came the wish to see his son happily married. The young man was engaged to a Miss Ida Kerne. No definite date had been selected for the marriage Sunday. Mr. Bernstein realized that his end was near, and he prevailed on the young couple to have the ceremony performed in the evening.

As the time approached Mr. Bernstein expressed fear that he would not live until the hour set, and urged that it be hastened. All the children were present at the time except one daughter, who was expected from Chicago. The preparations were hurried and the bridal party were about to proceed to Mr. Bernstein's bedroom. Mr. Bernstein had been sinking rapidly. The bride and groom took a position close by the bedside, and the dying man was propped up with pillows. The other members of the family gathered close by the minister. The latter was about to read the marriage ritual when Mr. Bernstein died. The grief-stricken family were about to postpone the marriage, but Mrs. Bernstein insisted that it should be carried out just as if her husband were alive. The family then witnessed the ceremony of making the young couple man and wife.

FATAL EXPLOSION.

Three Men Killed and Several Injured in the Illinois Steel Works, Chicago.

CHICAGO, Oct. 9.—Three men were killed in the Illinois steel works and five injured by the explosion of a steampipe.

The dead are: William Miller, 30, married.

A. F. Sparrow, unmarried.

John Holstrom died later of his injury, making the list dead number three.

The recovery of the injured is doubtful. All were employees at the South Chicago mill, and the injured were taken to the company hospital there.

The room in which the accident occurred was filled with steam from the broken pipes, and almost every one of the 50 men at work there were more or less burned. All but seven, however, were able to go to their homes, and the company's physicians reported that none of the others were dangerously hurt.

Entire Family Blown Up.

IRONWOOD, Mich., Oct. 9.—John Ravell, a farmer near this city, together with his family of five, were blown up by an explosion of giant powder yesterday. Ravell and a 5-year-old son were killed outright, the bodies being mangled in a frightful manner. Mrs. Ravell and a 6-year-old daughter will undoubtedly die. The others were not dangerously hurt. Ravell was thawing out giant powder in the oven of a stove, preparing it for blasting stumps.

New York Wins the Temple Cup.

NEW YORK, Oct. 9.—The Temple cup has been won by the Giants. Four well-contested games have been played for its possession. It is said the receipts for the four games will amount to about \$25,000. Of this the Giants will get \$16,000. As the expenses are not heavy, each of the 16 New York players will receive as his share nearly \$1,000. The Baltimores will have about \$9,000 to divide up among 14 players after their expenses are paid.

Massachusetts Democrats.

BOSTON, Oct. 9.—The Democratic state convention met here yesterday and nominated the following ticket: Governor, John E. Russell of Leicester; lieutenant governor, Charles E. Stratton of Boston; secretary of the commonwealth, Charles A. DeCoursey of Lawrence; treasurer and receiver general, James G. S. Grinnell of Greenfield; auditor, Alfred C. Whitney of Boston; attorney general, Henry F. Hurlbut of Lynn.

The Vanderbilts.

NEWPORT, R. I., Oct. 9.—Tho W. K. Vanderbilts are keeping themselves secluded here, and Mrs. Vanderbilt has been outside her great iron gates only three times since her arrival, 10 days ago. Her eldest son, W. K. Vanderbilt, Jr., has not appeared in Newport. The children who are here, Consuelo and Harold, have two tutors resident within Marble House, and they spend most of their time in study.

Disbursed Councilman Sentenced.

NEW ORLEANS, Oct. 9.—John T. Calahan, the first of the boodle councilmen convicted of criminal bribery and corruption in office, was sentenced by Judge Moise to five years in the state penitentiary and \$50 fine.

DOINGS OF THE TYPOS

International Typographical Union Convention.

FORTY-SECOND ANNUAL SESSION.

Louisville Extends a Welcome to the Delegates—The Condition of the Union as Reported by President Prescott—Proposed Changes in the International Law—Street Parade.

LEONVILLE, Oct. 9.—The 42d annual convention of the International Typographical union opened here at 9:30 o'clock yesterday morning at Odd Fellows' hall. Mr. W. B. Prescott of Indianapolis, president of the International Typographical union, called the convention to order. Dr. T. G. Eaton opened the convention with prayer. Mayor Taylor then delivered an address of welcome to the visitors. Celeron R. M. Kelly, editor of The Commercial, welcomed the "typos" on behalf of the press, and Mr. H. A. Boiles, president of the local Typographical union, on behalf of the local printers.

President Prescott, in his annual report, stated that the membership of the organization has increased during the past year by over 1,000, exclusive of 1,000 German-speaking printers who affiliated in accordance with the agreement approved by the plebiscite. Nearly every principal city in the country is represented by the new charters issued. Financially the union is in excellent shape, the general fund continuing to accumulate. Despite the prevailing conditions the receipts have more than equalled expenditures. Reference is made to the failure of the Indianapolis bank, in which the funds of the union were deposited, and it is figured out that after the final dividend has been declared the union will sustain a net loss of about \$12,000. With the idea of reducing this amount suit has been instituted against the directors as individuals.

The report deals with the pressmen imbroglio, with the condition of the printers' home at Colorado Springs and with the question of shorter hours.

On the latter the report refers to the defeat of the proposition making nine hours a day's work, and continues: "It is evident that the causes which go to make shorter hours such a necessity at this time also serve to impart hope to the opposition, and should warn us that adequate preparation is more necessary than ever.

In a business where the profits are not only inordinate, and in which the cost of material and rent are such potent factors in the cost of production, it is futile to suppose that employers will make a change so long as there is a seeming opportunity for successful resistance.

"Therefore, it will be a duty to formulate some plan for submission to the membership which contains, as a prerequisite to the adoption of a shorter work day, a means for accumulating a large fund for the purpose of prosecuting the fight.

The most cursory observer of recent events in the labor world must be convinced that to overlook this most

essential feature will be a prelude to a worse state than the existing one.

Though the industrial outlook is not an encouraging one just now, yet this is the proper time to make preparations. Now is the time to buckle on our armor and prepare for the fray."

The first business was the reception of the report of the law committee. The report recommended the adoption of various important amendments to the law, which have been under consideration since the last session. On the recommendation of President Prescott, Article 17 of the constitution was stricken out and a new section substituted. It relates altogether to certificates of membership and withdrawal cards, and provides for withdrawal cards for those who quit the business and exempts them from the payment of dues. A member of the union can not get a withdrawal card on the ground of inability to pay dues or to economize expenses.

The union, by a vote of 75 to 25, refused to extend the terms of the officers from one year to two years, as recommended by the president. It also refused to change the annual meetings to biennial meetings as recommended by the president and committee on laws.

When the question of changing the law, making the death benefit \$60 instead of \$50, as at present, came up, considerable discussion resulted. One delegate wanted to make it \$75, and others were even opposed to increasing it from \$50 to \$60. Various delegates pointed out the difficulty of increasing the per capita tax during the present hard times. The clerk read from the report of the president recommending an increase from \$50 to \$60 in death benefits. Finally the union decided to leave the death benefit at \$50, the committee's report to increase it not being concurred in.

At 12:30 o'clock the convention adjourned out of respect to the memory of George W. Childs and Anthony J. Drexel.

In the afternoon, at 2:30, there was a street parade. In this parade was the oldest member of the International union in the person of Mr. James R. Watson of this city. Mr. Watson is 82 years of age. The parade was followed by an entertainment provided for the visitors at Music Hall.

Methodist Women's Missions.

MUNCIE, Ind., Oct. 9.—The annual convention of the northwestern branch of the Women's Foreign Missionary society of the Methodist Episcopal church is in session here. Nearly 500 delegates are present from Wisconsin, Michigan, Indiana and Illinois. The convention will be in session for several days.

STRUCK DUMB.

Startling Information Has a Strange Effect on a Young Lady.

LAPORTE, Ind., Oct. 9.—Miss Jennie Platt of Greenville, Mich., is dying at the home of Crin Fox in this city of a broken heart. Miss Platt has been an invalid for some time, and a physician at her Michigan home told her that a trip to the south or west would do much to regain her lost health.

She had a sister-in-law, Mrs. Platt, who was a teacher in an Indian school on reservation in California.

The sister-in-law wrote Miss Platt to come west and live with her. The invitation was accepted and Miss Platt started for the west.

When she had reached Albuquerque, N. M., a telegram apprised her that an accident had befallen her intended hostess. The telegram didn't state that Mrs. Platt had been murdered—although such was the case—but the young lady surmised as much.

The shock made her speechless, and, unable to communicate her wants except through the medium of signs, she returned to this city and is now dying as the result of the belief that the sister-in-law is dead, though her sister-in-law's true fate has never been made known to Miss Platt.

THREE FATAL ACCIDENTS.

A Runaway and a Cow and a Horse Cause Them.

FORT WAYNE, Oct. 9.—Several fatal accidents occurred here yesterday.

William Brenaman and wife of Berne, Ind., were thrown from a carriage in a runaway accident. Brenaman fractured three ribs, and sustained internal injuries. His wife's recovery is hopeless.

Charles Kelker was kicked in the head by a horse and his skull fractured. He will die.

Henry Niemeyer, Sr., an aged German resident, while leading a cow got tangled up in the rope, and was dragged over the railroad track. His legs were broken, and he is injured internally. He can not recover.

Arm Pulled From Its Socket.

JEFFERSONVILLE, Ind., Oct. 9.—Thomas Davis, a convict confined in the Indiana prison south, employed in one of the departments operated by the Patton-Holloway Manufacturing company, was working a drill machine, when in some manner his hand caught in the belting, hurling him to a rapidly-revolving pulley, located above. Before he could be extricated his left arm was pulled out at the socket, left leg broken in two places and his body badly lacerated.

Duel With Axes.

HENDERSON, Ky., Oct. 9.—Two farmers, Raymond Martin and Robert Rye, at Heardsville, Ky., 14 miles from here, quarreled yesterday about a woman. Martin got two axes, and, handing one to Rye, proposed a duel. They fought until Rye had both arms severed from his body and fell dead. Martin received horrid gashes about the head and breast and is in a dying condition.

Fast Freight Jumps the Track.

SEYMOUR, Ind., Oct. 9.—A westbound fast freight on the Rock Island jumped the track at Sleepy Hollow, a small station near here, at 5 o'clock yesterday evening. Twenty freightcars followed the engine into the gorge, and Engineer Gerald Nolan, Fireman Marshall Lower and Head Brakeman Charles E. Dempsey, all of Trenton, Mo., were instantly killed. Conductor Sam Van Hook was injured.

Train Wrecked by a Steer.

FLAGSTAFF, A. T., Oct. 9.—Passenger train No. 3 on the Atchison, Topeka and Santa Fe, was wrecked yesterday at a point two miles west of Denison and 50 miles east of this place. The accident was caused by the locomotive striking a steer which was on the track. The engine, the express and a baggage car were thrown from the track and the engineer and fireman slightly injured.

Found Dead in Bed.

TELL CITY, Ind., Oct. 9.—T. C. Schlotfeldt was found dead in bed yesterday morning. It is thought he died of heart failure. He was one of the wealthiest men of the town, and was largely interested in manufacturing interests, being one of the principal stockholders of the Tell City furniture factory. He was 70 years of age.

Unknown Man Murdered and Robbed.

ELKHART, Ind., Oct. 9.—An unknown man was held up and murdered by tramps in this city last night. The body was discovered just after a freight train had pulled out. The pockets of the dead man had evidently been rifled. The murderers escaped on the freight train.

Explosion Caused by Carelessness.

ASHLAND, Pa., Oct. 9.—John Bugdanis, aged 16, was instantly killed, and Peter La Seutski, aged 35, was fatally injured yesterday by an explosion of gas in the Maple Hill mines.

The first flash from Sam Stairs' Searchlight has reached the BULLETIN office. It's a good paper from a Populists standpoint, but it must go against the Democratic grain in Sam's make-up to get it out.

The registration of voters in Maysville shows a wonderful increase in the number of "Independents" in that city.—Dover Searchlight.

And this list of so-called "Independents" includes the names of the Republican nominees for County Judge and County Assessor.

We will demonstrate positively to all inquiring that goods in our line, especially china and glassware since the new tariff went into effect have declined 25 per cent. or more.—Ford & Company.

The above is taken from one of our Central Kentucky exchanges. The new bill reduces the tariff on such goods and if the prices have not already come down, it's only a question of time when they will.

The Louisville Commercial, which is a Republican journal, recently remarked: "If the low price of wheat is due to the scarcity of corn, to what is the high price of corn due? Everybody knows that the high price of corn is due to a short crop, and they ought to know that the low price of wheat is due to the world's great increase in the production of wheat."

Then the Democratic party, we suppose, is responsible for this great increase in the production of wheat, because Republican papers say the Democrats have brought down the price of wheat to its present mark.

Senator Lindsay Coming.

Senator Lindsay, one of Kentucky's ablest and most distinguished citizens, will probably speak at the court house next Saturday night. Mr. J. N. Kohoe, Chairman of the Democratic Executive Committee, is in receipt of a letter from Judge Lindsay stating that he would be here on or about the date named. Further announcement will be made of the exact date.

Governor Brown has also been invited to speak here sometime during the campaign, and has replied that it will give him great pleasure to do so, if he can get away from home. One of his daughters is very ill, and he will make no speeches unless she improves.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—a purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other afflictions caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50c. and \$1 per bottle at J. J. Wood's drug store.

BEAUTIFUL THAMES.

IT IS BY FAR THE MOST ELEGANT WATER PARK IN THE WORLD.

A Pleasure Stream on Which in the Season There Is Always a Crowd and Plenty of Room—The Trip From Oxford to Richmond a Delightful Experience.

The river Thames is the most important as it is the most beautiful water park in the world. It is to London and the adjacent counties what the Charles river should and can by the diligence of public spirit be to Boston and the adjacent towns. With the hope of stirring this public spirit and showing what the English do with their beautiful river, and how they manage it, how they pay for its maintenance as a water park, I present what follows:

The Thames, counting all its turnings and twistings and not measuring by a direct line, runs something like 200 miles from its source to the sea. On its banks are 10 counties, including London, having a population of 8,500,000 people and a ratable valuation of about \$300,000,000. It drains, with its tributaries, an area of more than 5,000 square miles. Until it enters the county of London it is distinctly a river of pleasure. From the western border of the county of London to the sea, a distance of sixty odd miles, it is a highway of commerce. By its aid London has become the greatest port in the world.

It is of the Thames as a pleasure stream that I propose to write, but it is well to understand at the outset that the river from start to finish as a water park and as a commercial highway is under the control of a single authority called "the Thames conservancy." For purposes of administration the river is technically divided into two parts—the upper and the lower. The upper portion is practically what I have already indicated as the water park or pleasure section, and with that portion only am I now concerned.

One sees the upper Thames at its best from the middle of May to the end of September. Between those dates the trip down stream, say from Oxford to Richmond, a journey of 100 miles, is one of the most delightful experiences that can come to a lover of outdoor pastime. The best way to see the stream is to row or punt or paddle down the river, stopping overnight at any pleasant inn you may come to and making the journey in easy stages of about 20 miles a day. In this way you see some of the loveliest portions of the English country to the best advantage and under ideal conditions. This journey is a favorite one with thousands of people, and the facilities for undertaking it in comfort are abundant. In fact, the Thames abounds in facilities for outdoor pleasure. At every few miles there are boathouses and inns, and almost anywhere you can put up on the banks for a day's picnic. From end to end of the course, now on one side of the stream and now on the other, there is a towing path for the free use of the public. Wherever the path shifts from one side of the stream to the other there is a ferry station.

There are some 40 locks on the Thames. At each lock there are keepers on duty, and they reside in pretty cottages on the banks. Most of the locks are supplied with inclined roller ways, over which small boats can be easily taken if you prefer not to wait for a passage through the lock.

Many of the Thameside towns have an annual rowing regatta, each of which makes for its district the great fete day of the year. The chief of these regattas is that at Henley, whose fame is known to amateur oarsmen the world over. A Thames fete day affords one of the most delightful spectacles that can be imagined. The course is literally covered with small boats. The bright costumes of the occupants give a sprinkling of welcome color to the scene. The festivity is indeed a water carnival. The houseboats, which make an important part of the fleet, line the banks and are decked with flowers and bunting, and at night every craft is gayly illuminated.

On those occasions the old saying that "the English take their pleasures sadly" is again disproved, for a jollier and more delightful festa is nowhere to be found in Europe. Besides, no matter how great the crowd or how high the spirits of it, the order of the day is perfectly kept. Perhaps the rough element of the community does not care for these water sports. Perhaps the upper river is too far from the haunts of the turbulent, but whatever the cause the fact remains that gala days on the Thames are as notable for good manners as for good fun, and no matter how huge the throng (there may be a seemingly solid mile of small craft packed across the river from bank to bank) yet the whole business is so well managed that when the time comes to clear the course for racing the way is easily made by the regatta authorities and the officers of the Thames conservancy.—Boston Herald.

Electric Car Strikes a Wagon.

CHICAGO, Oct. 9.—A heavily laden electric car collided with a lumber wagon at Halstead and Forty-third streets killing an unknown boy and injuring all of the 25 passengers. The car was torn to splinters, but none of the injured will die.

Female Aeronaut Killed.

FRANKFORT, Ky., Oct. 9.—Miss Beatrice Von Drosden, 17, of this place, made a balloon ascension in New York State Saturday, and falling 1,500 feet was dashed to death. This was her 20th ascension, and she had never had an accident before.

The Old Friend

And the best friend that never fails you is Simmons Liver Regulator, (the R. d Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

MT. CARMEL, FLEMING COUNTY.

J. D. Bramel and wife visited friends in Carmel Sunday.

Wm. B. Tully and family, of Tollesboro, visited friends in Carmel last week.

Sam Tull Farrow and family spent Sunday with the family of Louis Goepke.

The frost did some damage to vegetation on low land, and a small per cent. of late tobacco was injured. Most all the tobacco in this vicinity, however, was safely housed.

The sale at "Aunt" Jane Coulter's last week was well attended and bidding was lively and spirited. Nearly everything sold well, and as an evidence of the good times upon which we are already entering, the sale amounted to \$100 or \$500 more than was estimated.

The preacher appointed to preach here the present conference year failed to come on account of the sickness of his wife. Sunday our people were treated to two elegant discourses by Rev. Mr. Chandler, of Nepton. Some change in the arrangements has been made by which a Rev. Mr. Ross will preach for us this year.

Mr. William Foxworthy, whose continued illness has been reported from time to time in these items, died Saturday at 10 a. m. and was buried at Mt. Carmel cemetery Monday. Mr. Foxworthy spent almost his entire life in this vicinity. He was a successful farmer and an upright man, and will be remembered by those who lived near him as a kind and obliging neighbor.

There are some 40 locks on the Thames. At each lock there are keepers on duty, and they reside in pretty cottages on the banks. Most of the locks are supplied with inclined roller ways, over which small boats can be easily taken if you prefer not to wait for a passage through the lock.

R. C. Williams is kept busy making a superior quality of molasses for himself and neighbors.

Frank Williams is spending the week in the vicinity of Sugar Loaf, hunting and chestnutting. Turnips, sweet potatoes and all kinds of late vegetables are quite plentiful in this neighborhood.

Mrs. Boe Carr and daughter, Mrs. John Gillespie, of the Sixth ward, were visiting friends here last week.

Albert Kidder, of Mt. Carmel, returned home Sunday evening after spending a few days here on business.

Quite a disturbance occurred here between neighbors last week on account of bad fences. Good fences make good friends.

A family named Cooper, from Western part of the county, afflicted with typhoid fever, was moved to the infirmary last week.

Which is the true version of the Springdale earthquake, the "awakening of the preacher's conscience," or the "sitting on the chair?"

The delightful weather the past week was quite favorable to the farming interests. The late tobacco which was about all matured is safely housed and the fall plowing has commenced.

For the enlightenment of the Springdale correspondent of the BULLETIN, we would say that "East Limestone," the home of many intelligent and honorable citizens, who abhor a hypocrite or falsifier, is situated in Mason County and contains the head of Sleepy Hollow which is a long winding stream, and a beautiful fertile valley terminating at the river within the city limits, but not the "Hollow Sleepy Head," which seems to reside at a one-horse boarding house, where when the meals are served the boarders are obliged to "lookout" or their names will be Dennis.

MT. GILEAD.

Miss Ella Warden is on the sick list.

Oscar Worick was in Cincinnati on business last week.

Dr. T. L. Clark and W. S. Calvert were in Maysville Friday.

John Scott, of Bradysville, O., was here visiting his son, W. S. Scott, last week.

Sam T. Farrow and wife were the guests of his father, J. B. Farrow, Thursday.

L. T. Goepke, of Mt. Carmel, was a pleasant visitor in this vicinity Saturday.

John DeAtley, of Maysville, is visiting his uncle, George Turner, this week.

B. W. Goodman, of Maysville, was here last week visiting his brother, Lucien Goodman.

C. H. Farrow and wife, of Tharp, Lewis County, were here last week visiting relatives and friends.

Thomas Coulter, of near Kansas City, Mo., was here last week visiting relatives and friends. He left Monday for his home, accompanied by

In Season and in the Lead

What is of the greatest moment just now to the ladies are the queries: Where can we find the greatest variety of seasonable goods? Where can we get the most for our money? The answer to these questions will be found in our store, and in the following price list:

DRESS GOODS.

A Beautiful Nuptial Event at Philadelphia in Which a Maysvillian Is the Groom.

The marriage of Mr. Simeon Rosenau, of this city, and Miss Ida Rosenheim, of Philadelphia, was solemnized last Thursday evening at 5 o'clock at Philadelphia, Rabbi Krauskopf officiating. Letters from that city speak of the wedding as a very beautiful and elegant nuptial event.

The groom is a member of the firm Rosenau Bros., the well known dry goods merchants. Since his coming to Maysville he has won a large circle of friends who join in wishing him and his bride all the joys of a happy wedded life.

The bride is described as a very beautiful and accomplished young lady. She will be warmly welcomed to Maysville by Mr. Rosenau's many friends.

At last accounts the couple were at Montreal, Can., on their wedding trip. They are expected in Maysville the latter part of this week. Mr. Rosenau has taken one of the handsome residences in the "Cox Row" on Market street, which has been fatted up in elegant style for the coming of his bride.

A Mysterious Affair.

Near Logan's Gap last Saturday morning a fisherman while engaged in looking his trotline saw an empty johnboat floating down the Ohio. He approached it and saw a lot of fish lying upon the bottom. The fish had not as yet spoiled, and were readily marketed.

The supposition in that neighborhood, says the Ripley Bazoo, is that some "fish thief" had been discovered while looking the lines of a fisherman during the darkness of the night and had received a quieting dose of lead, falling overboard. The recovery of a floater may tend to solve the mystery.

THE west end of Mercer County is overrun with squirrels. They are traveling South. Whence they came no one knows, and the oldest inhabitant has never witnessed the like. Nothing seems to turn them from their course, and where they crossed Chapline River the water was literally black with the little quadrupeds.

A POINT of interest in regard to schools and class taxation was decided in the Court of Appeals Saturday. The case is styled the Board of Trustees of Pineview vs. The Bell County Coal and Improvement Company. A tax of 30 cents having been levied on the property of "all white persons" in the district, the company sought by an injunction to prevent the collection of the tax, on the ground that the company was not a natural person and had no color. The opinion of the court holds the company liable as corporations and embraced within the meaning of the term white persons.

FREE WOOL

IS CAUSING the Mills to Hum—Good News From the State of West Virginia.

WHEELING, W. Va., October 7.—The demand for woolens is growing rapidly. Up till the first of September, the Martinsburg Woolen Mill Company was able to fill all its orders running half time. Since then it has had to run full, and last week an effort was made to get sufficient men to run the mill night and day. This could not be done, so all the force was put on five-quarters' time, working till 9 o'clock. This will be kept up until enough men can be gotten to work double time, unless the employees refuse to continue, as they threaten to do, the hours being too long.

The Kilbourne Knitting Mills, of Martinsburg, are overrun with orders, and even working five-quarters' time does not make it possible to keep even with the orders offered. An addition to the mill has been commenced, and it is hoped to have it in operation in two months. The company already has two factories running full.

J. W. Rigg, Son & Co., of Terra Alta, the largest woolen manufacturers in the State, are working full force at five-quarters' time, and are still unable to fill the orders offered. Before September 1, they had no trouble filling all orders, working half time. All these industries are located in Hon. William L. Wilson's district.

Reports from all parts of the State indicate a large and growing demand for fat cattle. Buyers for the Baltimore and Pittsburgh markets are scouring the country for fat cattle, and the supply is not equal to the demand. Three months ago cattle were almost given away to get rid of them. Stock raisers along the Ohio river railroad made up a train load and took them to Pittsburgh, and got less than their freight and expenses for them.

PRICE OF SUGAR.

SENATOR FAULKNER Interviewed on the Effect of the New Tariff Bill.

"Has the new tariff increased the price of sugar?" was asked Senator Faulkner last Friday. "No," said he. "Official records of the wholesale price of granulated sugar in Philadelphia disprove the assertion. I have made a comparison of prices from the date of the operation of the McKinley bill to the present time under both measures. The wholesale price of granulated refined sugar prepared for the months of September during the last four years is as follows:

Sept. 1.	Sept. 15.
1891.....4 3/16	4 3/8
1892.....5	5 3/16
1893.....5 3/8	5 3/8
1894.....5	5

"Official figures show the price to the consumer of granulated sugar has not been increased, and yet how different is the effect of the two laws in the revenue received by the Government from this source.

"The revenue to the Treasury under the present law is \$43,000,000; under the McKinley law, nothing.

"McKinley gave to the trust free raw sugar and a prohibitory duty for their product of refined sugar. The present law gives to the Treasury a large revenue, enabling Congress to reduce the price on other necessities of life and cut down the profits of the trust over 50 per cent."

J. W. CLARY.

THE Postmaster at Shannon Passed Away Monday Morning After a Brief Illness.

MR. J. W. Clary, postmaster at Shannon, died Monday morning at 10:30 o'clock, of neuralgia of the heart. He was taken sick only the day before, and the news of his sudden death was a shock to his friends and the community.

Decesed was about fifty years of age, and leaves a wife and three children. He had been postmaster of Shannon several years and was a man who enjoyed the respect and esteem of the community.

The funeral will occur Wednesday at 10 a.m. at Shannon, Rev. J. D. Redd conducting the services.

MRS. JANE COULTER and son, Thomas, left Monday evening for the latter's home at Peculiar, Mo. She will reside with him in the future.

THE Misses Alexander, of Second street, Fifth ward, pleasantly entertained a party of their friends last evening. Dancing was indulged in until a late hour, Walker's orchestra furnishing the music.

A GRAND RALLY

All Along the Line, From Now On
Until the November Election.

Democrats to Make Things Lively.
Dates of Meetings and List
of Speakers.

The Democrats of Mason are preparing for a grand rally all along the line from now until the close of the campaign.

A series of meetings have been arranged at which there will be several short and spicy addresses on the issues of the day.

These meetings will be conducted on the order of those two years ago, when the single X Democratic clubs were organized all over the county.

The dates and names of speakers are given below, and the citizens of the precincts and the public generally are cordially invited to attend and hear the political questions of the day fully and fairly discussed. All Democrats are urged to turn out.

Let everybody who favors a free government, managed by and for the benefit of the whole people, be present. The dates of the meetings and names of speakers are as follows:

Germantown, Thursday night, October 11th—Hon. R. K. Hart, Judge A. E. Cole, and F. P. O'Donnell.

Helena, Thursday night, October 11th—Judge Thomas R. Phister, John L. Chamberlain and George W. Sulser.

Lewisburg, Friday night, October 12th—Hon. R. K. Hart, C. L. Sallee and Judge Thomas R. Phister.

Washington, Friday night, October 12th—Judge G. S. Wall, George R. Gill and F. P. O'Donnell.

Maysville, Saturday night, October 13th—Judge T. H. Paynter, Hon. R. K. Hart, Judge A. E. Cole, F. P. O'Donnell and Judge Thomas R. Phister.

Fern Leaf, Saturday afternoon, (at 3 o'clock), October 13th—Hon. R. K. Hart, Judge Emery Whitaker and Judge Thomas R. Phister.

Murphysville, Saturday afternoon, (at 3 o'clock), October 13th—Judge T. H. Paynter, Judge A. E. Cole and F. P. O'Donnell.

Moransburg, Saturday night, October 13, John L. Chamberlain and John L. Whitaker.

Attention, Democrats!

It is the desire of the Democratic Executive Committee to have one or more speeches delivered in every school district in Mason County before the November election. If you want a meeting in your neighborhood arrange the time and place as soon as possible and advise your member of the committee, or Secretary J. C. Lovel, or Chairman J. N. Kehoe, Maysville, and speakers will be furnished. By order of the

DEMOCRATIC EXECUTIVE COMMITTEE.

JACOB BOONE.

Are Any of His Descendants Living
Hereabouts?—An Old
Letter.

Postmaster Chenoweth is in receipt of the following:

TYRONE, PA., October 5th, 1894.
Postmaster, Maysville, Ky., My Dear Sir: My grand-aunt, Anna Boone Lincoln, died a few days ago, and among her papers was found an old letter written to her father, James Lincoln, by Jacob Boone, of Maysville, Ky., dated Maysville, December 26th, 1818.

I herewith enclose verbatim copy of letter. If any of the children of said Jacob Boone, or grand-children, are living in your town or vicinity, I would be pleased to hear from them, and will inform them further. Please show them copy of letter.

In case none of the family can be found, please notify me to that effect. From the letter Jacob Boone had two sons, whom he mentions, (and possibly more), William and Daniel. Respectfully,

JAMES BOONE LINCOLN.

Mr. James Lincoln,
Living in Conestoy Valley, Lancaster County, Pa.,
Near Morgantown, Pa.
Per favor of Thomas Boone.

MAYSVILLE, Dec. 26th, 1818.

My worthy old friend: I take this opportunity to let you know that we are all well and hearty, thanks be to God for his mercy, hoping these lines may find you and your family in the same way. My old friend, I suffered very much after I left you before I got home. Two of my ribs were broken, my left arm was so fractured that for ten or twelve weeks I was forced to have help to put on my coat and pull it off the frame. I suffered great, and I don't believe ever my shoulder will get right well.

We had a tedious passage down the river of fifteen days, but got home and found all well but my negro boy. He since departed this life on the 16th of November, which was a great loss to me.

I was telling you that my son, William Boone, would come into your part of the world next summer, and when he does, I think you will see him. If he lives, where I hope to see you and my brother Joseph will give him good and wholesome advice, if you should see it necessary; and your compunction will much oblige your old friend and sincere well-wisher.

My old friend I request one favor of you and your family, that is to not forget me so far as to neglect writing to me. I shall be sure to think of you and your family, and the friendly treatment I received while among you.

It would be good for you to have the pleasure to see you or any of your family at my house. I have been pleased very much with Cousin Thomas Boone, who has been with me five days. My son, Daniel Boone, has gone to New Orleans with a boat load of flour.

So now I close, with kind and friendly love to you and all your family.

JACOB BOONE.

Fasted forty Days and Died.

CHICAGO, Oct. 9.—Professor William Sloan died at his home after a fast of 50 days. Professor Sloan, who was a prominent educator and newspaper man, had been subject for many days to attacks of a strange disease, which he said compelled him to fast. He had frequently filled three and four weeks without nourishment, and his physicians had expected his recovery from the last attack.

PASSENGER STEAMER WRECKED. Miraculous Escape of Nearly Two Hundred People.

ADELAIDE, South Australia, Oct. 9.—The passenger steamer London was wrecked Saturday on Pollock reef, 45 miles south of Cape Arid. There was on board 180 passengers, while the crew numbered 36. It was impossible for the small boats to be used, most of them having been smashed by the heavy seas and it being impossible to launch the others, all hands made their escape to the reef over the bows of the steamer which was well up forward.

After getting off the reef, rafts were built of wreckage, and on these everybody embarked and slowly sailed and rowed to an island 20 miles north of the reef, where all but four passengers, who are missing, landed in safety. Some time afterward the schooner Grace Darling rescued all hands from the island.

Man Blown to Pieces by Dynamite.

BUFFALO, Oct. 9.—Through heedlessness, Joseph Kosinski was blown to pieces by dynamite. He was working on a sewer job and punched the cartridge with a crowbar. He went up with a shower of stones and came down without a whole bone in his body. He had a large family.

Weekly Review Cincinnati Tobacco Market

Furnished by the Cincinnati Leaf Tobacco Warehouse Company:

Week. Year.
Offerings..... 1,681 56,929
Rejections..... 441 14,968
Actual sales..... 1,210 41,961
Receipts..... 958 45,950

There was a better tone in our tobacco market during the present week. Prices were, perhaps, no higher than we quoted them in our last, but the bidding was quicker, competition greater, and we judge, therefore, that there was an increased demand. The best grades, choicer and good leaf, received the most attention, and good leaf, which had been at 42 cents, was 40 cents. We can't change quotations on medium leaf, but they were certainly not any lower. The only goods which might be quoted easier are trashos. Though they have proportionately suffered the most in the recent depression, there seemed still to be some room for a further decline, and this is only explicable by a possible large supply of this kind in the New crop. As to this, the opinions may differ very largely, but it does seem that speculative demand should at least keep up the market.

We suppose there is now but one opinion as to the size of the new crop, it will yield largely in production, but as to quality it is very different in the various sections. The Old districts, those of Mason, Breckin, Brown, Owen, etc., seem to have the better of it in this respect, while our information from the newer sections, the Blue Grass country and others, point to a rather lower average than usual in the matter of quality.

As we can see from the weekly reports, the sales of Bremen in the Lower Ohio are considerably lighter, and as large stocks of this kind are never carried in that city, at least not to such an extent as in our market, the latter will have to furnish the supply for the remainder of the season. We take some comfort from this fact, because it may stimulate prices in a measure, though, of course, our own stocks seem plentiful at present.

Offerings were quite large, rejections in fair proportion.

Stocks of old are slowly diminishing, with no betterment in prices.
